## Bilateral Meetings

- (15:00 - 18:00)

### Description

**Angaza provides Pay-As-You-Go solar technology** to manufacturers and distributors in emerging markets. Our platform makes solar devices and other transformative products affordable to off-grid energy consumers worldwide, leading to a 400% increase in sales.

Manufacturers embed Angaza's metering and monitoring technology in their solar devices. Distributors use our web portal and mobile application to manage their Pay-As-You-Go solar loans and agent networks. Our partners can access a vast, untapped market of customers by dropping the upfront price of solar products and collecting payments over time.
