Bilateral Meetings

- (15:00 - 18:00)

Description

SunFunder is a solar finance business aimed at providing debt to solar energy-related companies in emerging markets. We arrange and participate in short-term and medium term loan facilities for inventory financing, working capital, structured and project finance loans, including our off-balance sheet instrument (SAFI) to help our customers scale deployments of solar energy systems and catalyze growth in the sector.
