Offer & Request

Match-making for projects, module supply

Jinko Solar as #1 PV module manufacturer worldwide and #1 market share in Africa, is willing to offer our worldwide network of partners to get African PV projects (both (utility and Commercial/industrial) off the ground. Should you be looking for an investor, co-developer, EPC or debt provider, we are in the position to match-make. From Jinko side, we would wish to supply you with our state-of-the-art product, compatible with your climate condition. Distributors wanted.
