### **Description**

Quaint is an Independent Power Producer-IPP based in Nairobi Kenya. With a portfolio of renewable energy projects, the company is dedicated to working with its partners and communities where it does business in identifying the right sized integrated solutions, which are sustainable, with emphasis on cost reduction, speed of execution and low environmental foot print. With strong local roots and global reach, the company prides itself as a sustainable company recognized for its people, partnership and performance.

The company is currently developing a 40MW grid connected solar PV project at Nyakwere in Homa Bay Kenya. The Power Africa supported project is in advance stages of development. We look forward to connect with potential equity investors, debt financials, EPC and O&M providers.
